OBJECTIVE

Highly motivated and results-driven professional seeking a challenging opportunity in software development to leverage my skills and experience.

EDUCATION

B.Tech in Computer Science Engineering,
Vardhaman College of Engineering -2021-2024

Currently in the 2nd year.

Diploma in Computer Science Engineering,
Vijay Rural Engineering Collage (GPA: 9.84) -Nizamabad, India:2021-2024

Secondary Schooling
Kasturba Gandhi Balika Vidyalaya (KGBV) -2021

PROJECTS

1.OBJECT DETECTION USING YOLO

Object Detection Using YOLO Developed a project utilizing YOLO (You Only Look Once) algorithm for real-time object detection.The project involved training the YOLO model on a custom dataset and implementing the system to identify and classify objects in real-time video streams

2.GENERATING ELECTRICITY FROM WASTE :Developed a project on generating electricity from waste materials, focusing on sustainable energy solutions. This innovative approach not only provides a renewable source of energy but also addresses waste management issues, contributing to environmental sustainability.

SKILLS

“Communication skills, Decision making, Active Listening”

Technical Skills: Microsoft office word, Microsoft excel, Power point.

Languages known: C, C++, Java, Python, HTML, CSS, .NET

Hobbies: Improving computer skills, Drawing, Singing, Yoga, Volunteerism.
